

CLARITY[®]

COPPER SYSTEMS

designed to be better.™

 **legrand**[®]

PREMIUM PERFORMANCE

Clarity products deliver exceptional value and performance, backed by customer support that is unparalleled in the marketplace along with a nCompass™ lifetime warranty. We offer a range of jacks, patch panels, workstation mounting accessories, EZ Patch™ packaging solutions and copper patch cords that complement our custom and standard copper solutions—for a fully integrated system.

CLARITY (PREMIUM)

Our Clarity components offer unmatched premium system performance and reliability in the industry.

SYSTEM FEATURES	Doubled RU Space with High Density Solutions to Address the Challenge of Space Limitations	
	ETL Verified Components for 3rd Party Verified Premium Performance	
	50 Years of Innovation for Minimized Installation and Service Time	
	Front or Rear Loading Jacks for Flexible Installation Scheduling	
	Full Suite of Patch Panel Solutions to Match Aesthetics for an Integrated Legrand System	
	Mixed Media Capabilities for a Dynamic, Expandable Network within an Existing Footprint	
	TAA Compliant / Buy America to Meet Specific Project Requirements	
	PoE Rated for 1.5+ Amps Per Circuit Trace with Arcing Erosion Mitigation to Support High Powered PoE up to 100W	
	Patch Panels with Rear Cable Management to Protect the Integrity of Connections	Full Line
	nCompass™ Warrantied Solutions Guarantee Premium Performance Headroom	Premium

PATCH CORDS

Clarity patch cords feature stranded conductors, combining performance with flexibility for simple cable management.

POWERWISE® PRE-TERMINATED ASSEMBLIES

1G SOLID PATCH CORDS

PowerWise® 1G 4PPoE cables provide industry leading performance and overall value for 4-Pair Power over Ethernet (4PPoE) applications requiring up to 100W of power and up to 1 Gigabit Ethernet—making them ideal for high power, low data applications like PoE lighting. PowerWise 1G 4PPoE cables are specifically designed to mitigate temperature build up, offer exceptional energy efficiency, and ensure above-the-standard performance (up to 1 Gigabit Ethernet) over the lifetime of the cable.

EZ PATCH™

EZ PATCH BOX SOLUTION

The EZ Patch Box Solution is a revolutionary way to dispense and manage patch cords, reducing installation time and waste. There are no bags to open, tie wraps to undo or straightening necessary—the cords dispense one after another, ready to install. With EZ Patch, staging areas are clean, neat, and completely organized.

FEATURES

- **Dispenses Patch Cords Quickly and Easily:** Reduces staging and installation time
- **Eliminates Trash from Opening Bags:** A green, friendly approach to packaging patch cords
- **Provides a More Orderly Staging Approach:** Eliminates errors and tangles from traditional staging
- **Tested and Verified:** Factory tested and ETL third party tested and verified to TIA/EIA 568C.2
- **Paralign 2 Pair-Positioning Technology:** Maintains pair integrity through the plug termination, allowing mating hardware to be designed/tuned to these cords
- **Snagless Plug Design:** Protects plugs when pulling through pathways or cable managers
- **Premium Conductor Cordage:** Reliable performance and durable cord life

EZ PATCH™

EZ PATCH FLAT PACKS

The EZ Patch Flat Pack is an innovative addition to the EZ Patch series, allowing a 12 or 24-pack of cords to be distributed from flat plastic packaging, which is ideal for patch panel applications. The reduced diameter is ideal for high density data center applications. The smaller cable surface area allows for increased airflow and a smaller bend radius, which makes it easy to route through cable management panels.

FEATURES

- **Reduced Diameter:** 28 AWG is ideal for high density data centers and provides increased airflow
- **Bulk Packaging:** Reduces installation time and packaging waste, no dealing with individual bags or zip ties
- **No Cord Memory:** Packs are laid out flat in a bundle
- **Plastic Packaging:** Ideal for data center applications that do not allow cardboard
- **Lightweight Design:** Installers can easily carry the bag over their shoulder
- **Easy Tear Perforation Strips:** Tears at each end allow for quick connection or easy removal of cords
- **Cable Management:** Bag can be used as a fishing mechanism to route a bundle through a vertical manager
- **Available in Packs of 12 or 24:** Quantities ideal for patch panel applications
